Ajmer, Rajasthan, India

OBJECTIVE

Targeting **Software Development** roles with an organization of high repute with a scope of improving knowledge and career growth.

EXPERIENCE

LG Soft India — Research Engineer Intern

Jul. '24 – present

- Developed a project individually for the automation of Autosar log analysis.
- Automated Log Analysis: Designed and developed a log analyzer tool to automate the analysis of Autosar DLT logs, significantly improving the efficiency of log processing for the development team.
- UI Representation: Implemented advanced filtering functionalities to allow developers to sift through logs more effectively. The tool visually represents the logs, making it easier to identify patterns, track issues, and debug crashes.
- Performance Optimization: Focused on optimizing the tool's performance to handle large-scale logs efficiently, ensuring smooth user interaction and quick data processing.
- Integration with Development Workflow: Integrated the log analyzer seamlessly into the existing development workflow, reducing manual effort and minimizing the time spent on debugging the logs.
- Collaboration and Feedback: Worked closely with cross-functional teams, gathering feedback from developers to iteratively improve the tool's usability and effectiveness.
- Tools & Technologies: Python, QT for UI development

PROJECTS

EmployeeD — Employee Management System

| [GitHub](#)

- **Tools and Technologies:** Node.js, Express.js, MongoDB
- **Roles:** Back-End Web Development
- **Description:** Wrote Back-End Codes and Built a EmployeeD Dashboard with Functionalities like Login Dashboard, User Authentication, Admin – User Interface, Task Analysis.

Code with AJ — Edtech Platform

| [GitHub](#)

- **Tools and Technologies:** JavaScript, React.js, React-Routers
- **Roles:** Front-End Web Development, Deployment
- **Description:** "Code with AJ" is an educational platform designed for Developers and DSA Enthusiasts. It offers repositories to deepen understanding of technologies and foster a love for coding.

ACHIEVEMENTS

- Selected and Volunteered as a **Cultural Guide** in **G20 Summit '23** (NATIONAL LEVEL EVENT) at Pinjore Garden, Haryana | Office of International Affairs (OIA), Chitkara University | March '23
- Conducted a lecture on C++ Basics for over 100+ students of 1st Year | CSI-IETE CUHP | August '23
- Conducted Global week - 2022 as Head – Coordinator, this is a unique feature of the Office of International Affairs (OIA), Chitkara University | October '22
- Managed The Spain Coherent Campus Visit of Students and Professor by Office of International Affairs (OIA), Chitkara University | April '23

EDUCATION

Chitkara University, Himachal Pradesh

Sep. '21 - present

Bachelors of Engineering - Computer Science Engineering

GPA: 8.59

Vivekananda Kendra Vidyalaya, Hurda, Bhilwara

Apr. '20 - Mar. '21

12th - PCM with Computers

Percentage : 76.8

SKILLS

Programming	Java, JavaScript, C++, Python, Git
Development	JavaScript, ExpressJS, NodeJS, ReactJS
Databases	MySQL, MongoDB
Soft Skills	Problem Solving, Analytical-Mindset, Communication, Leadership, Critical Thinking Collaborative, Presentation, Self-driven, Communication Skills, Work Ethics
